

Online Menus Vendor Pricing

Vendor Pricing

Vendor Pricing is a **NEW** feature available to our corporate **Online Menus** customers. The Corporation may create their own Price List using their nationally contracted vendor pricing.

Benefits

- All Online Menus program cost analysis reports will reflect your vendor's pricing rather than Crandall's default pricing.
- Once entered, the Corporation has full control over their own Price List—including maintenance.
- Accessible 24 hours a day, 7 days a week.

How It Works

Details

1. The Corporation determines which items to match with Crandall's Master Ingredient List and provides the information to Crandall in a pre-formatted EXCEL document.
2. The information is imported and is maintained by the Corporation using the new built-in feature.
3. Notify Crandall as to which communities using the Online Menus program are to be assigned this new Price List.

Pricing

Cost & Time

- None— included in monthly fee

Turnaround Time

- Determined on an individual basis.
** may vary depending on reviews/corrections*
